n5Plus

Multigrout 60

By Larsen Building Products Ltd

Detailed description

Heavy duty, single component, cementitious, non-shrink, flow-able grout. Blended from modified cements and granular aggregate free from corrosive substances. Requires only the addition of water to produce a highly fluid grout. Used for placing under machinery base plates, crane rails, bridge bearing pads, transformers, handrails and many other similar applications.

Product guidance - As Standard

Features:

- Form: Granular.
- Colour: Grey.
- Aggregate size (maximum): 1.2 mm.
- Application temperature: +5–30°C.
- Application thickness: 10–75 mm.
- Yield: 14 L per 25 kg flow-able mix (approximately).
- Compressive strength after 24 hours: 25 MPa.
